github.com/hardikguptaofficialgit | strykerinside.vercel.app

Skills

Languages: JavaScript (ES6+), TypeScript, C++, SQL, Dart
Backend & APIs: Node.js, Fastify, Express.js, REST APIs, WebSockets, Socket.IO, Supabase Auth, Cloudflare Workers
Frontend: React.js, Next.js, Flutter, Tailwind CSS, PWA, Web Workers, WebAssembly (WASM)
Databases: PostgreSQL, Firebase, MongoDB, Redis
Cloud & Tools: GCP Cloud Run, Docker, CI/CD, Git
AI/LLM: LLM Applications, RAG, Prompt Engineering, MCP, OpenRouter
Core CS: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, OOP

Professional Experience

Backend Engineer Jul 2026 – Aug 2026
Sparkeefy (Part-time) Remote

- Built the production backend for Sparkeefy's **AI relationship wellness app** ahead of its V3 Play Store launch, including **Supabase** authentication and **GCP Cloud Run** deployment.
- Built the **Wingman AI chat** backend with session handling, guardrails, and **OpenRouter/DeepSeek** LLM integration; shipped performance improvements.
- Implemented **phone OTP authentication**, user entitlements, **rate limiting**, and security fixes; built **2 internal tools** (Admin Panel, Wingman Lab) for testing and QA.

Open Source Contributor Jul 2026 – Present
Reticle (Part-time) [GitHub] Remote

- Contributing to **Reticle**, an open-source **AI verification** platform that uses live **DOM, network, and routing** signals from running web apps.
- Merged a **4,500+ LOC, 46-file** dev HUD redesign and a **bridge reliability** fix that prevents false success states; improved **assertion grammar** for agent workflows.

Frontend Engineer Intern Jun 2025 – Aug 2025
NextRound Private Limited Remote

- Built a meeting-transcription **Chrome extension** with a real-time audio capture and **WebSocket** streaming pipeline, delivering speech-to-text at **sub-1-second latency** for **100+ concurrent sessions**; processed **50+ hours** of test recordings.
- Designed responsive live-caption and transcript-management interfaces, reducing transcript retrieval time by **80%**.

Projects

Linkit | *Creator SaaS Platform* | linkitapp.in

- Built a growth platform for **creators, students, cafes, and restaurants** to consolidate portfolios, menus, links, and lead capture into one branded page; onboarded **200+ users**.
- Built **Velocity Forms**, a no-code lead-collection tool with **3 integrations** (**Google Sheets, Airtable, Notion**), and an **AI-powered visitor chatbot** with an analytics engine tracking engagement trends.

StayLokal | *Privacy-First File Toolkit* | staylokalapp.hardikgupta8792.workers.dev | GitHub

- Built a local-first toolkit to convert, compress, and edit **PDFs, images, video, and audio** entirely in the browser, with **zero uploads, servers, or accounts**, so files never leave the device.
- Built a client-side pipeline on **Web Workers** using **FFmpeg.wasm, PDF.js, PDF-Lib, and Canvas API** (Next.js, TypeScript, **Cloudflare Workers**), weighing client-side privacy and zero server cost against bundle size and performance; added a bid-based **sponsor leaderboard** with payment-verified placements.

C25Go | *Indoor Navigation PWA* | campus25go.vercel.app | GitHub

- Built an offline-first campus navigation **PWA** used by **15,000+ students daily** at KIIT to find classrooms and venues, replacing the need for volunteer guides.
- Implemented **Dijkstra-based shortest-path routing** that returns routes in **under one second** in production, with full offline support for high-traffic, low-connectivity conditions.

Education

KIIT University 2024 – 2028 (Expected)
Bachelor of Technology (B.Tech) in Computer Science & Engineering (AI/ML Specialization) Bhubaneswar, Odisha

Leadership & Achievements

- FED KIIT, Senior Technical Lead & Venture Lab Lead** (Nov 2024 – Present): led technical initiatives and managed digital platforms supporting **student events, entrepreneurship programs, and internal operations**; organized major events.
- GDG Hackathon (Building Bad)**: won **1st Place**. **YC Hackathon**: selected as one of **2,000+ participants** from a global applicant pool.
- Delegate, HPAIR**: selected for the Harvard Project for Asian and International Relations conference at **Harvard University**.
- Growth Hackathon, The Residency, Bangalore**: pitched Linkit, validated GTM strategy, and generated leads.
